WHY PARTNER WITH JOTTO DESK?

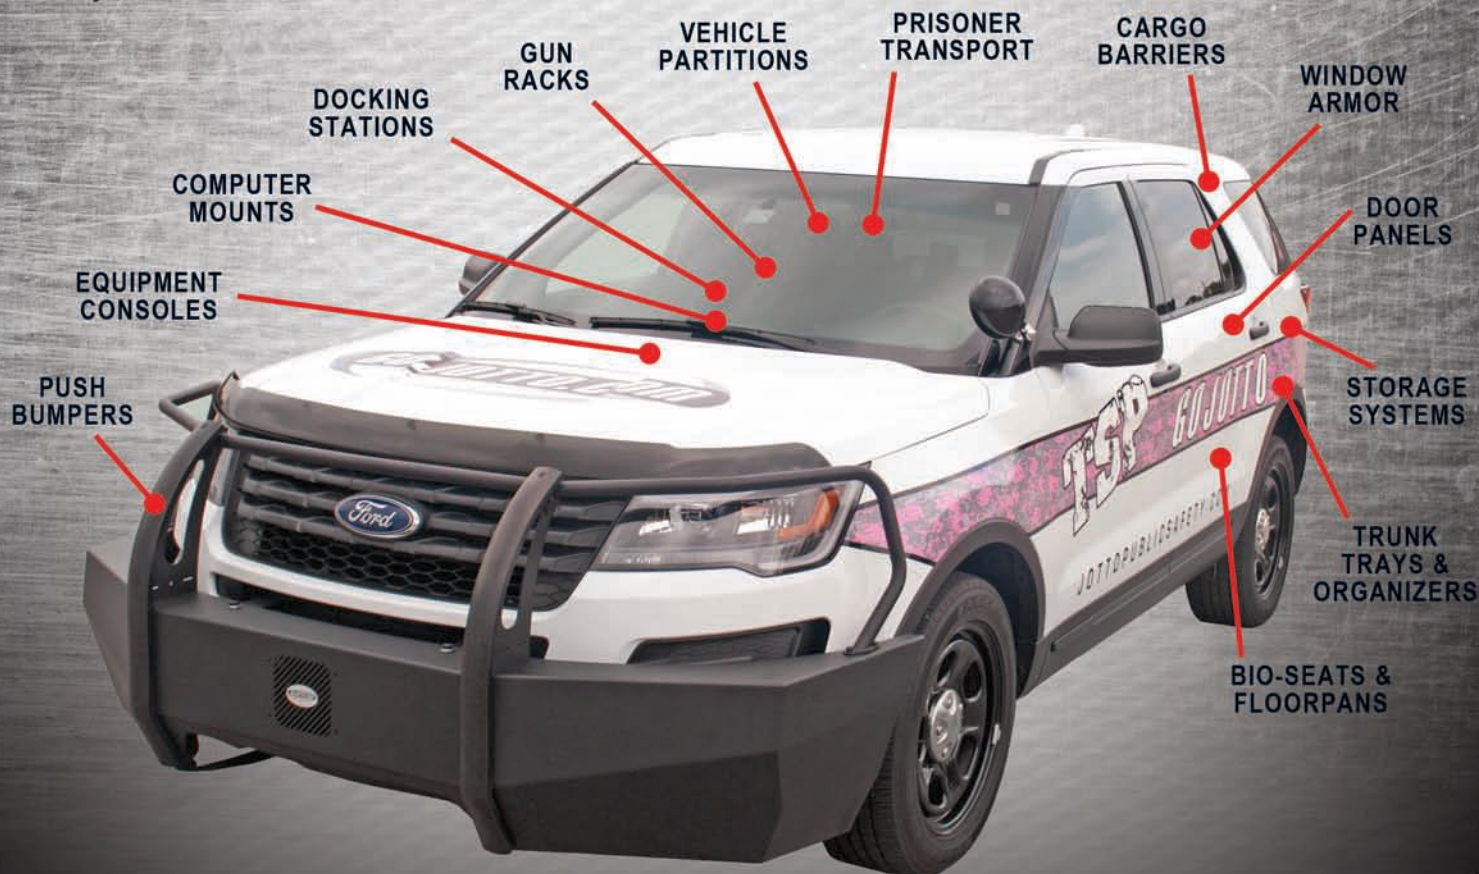

ALL PRODUCTS ENGINEERED FOR THE VEHICLE
ALL PRODUCTS ENGINEERED TO WORK TOGETHER
ALL PRODUCTS SHIP AT ONCE, NOT MONTHS LATER
ALL PRODUCTS SECOND TO NONE IN QUALITY

WE'RE PROUD TO BE YOUR TOTAL SOLUTIONS PROVIDER

For over 20 years, Jotto Desk has offered a variety of high quality products that are specifically engineered and thoughtfully designed to enhance the organization and ergonomics in the public safety "mobile office"...the vehicle. What makes Jotto Desk distinctly different than others is our dedication to the **TOTAL** vehicle. Since 1994, Jotto Desk has risen to become the first, "Everything But Lights" equipment manufacturer for public safety and homeland security.

We offer many types of vehicle-specific products, BUT we want you to know that we create all of our **SOLUTIONS** to seamlessly fit and interact together in a vehicle. You won't have to worry how products will fit with each other, you can trust that Jotto Desk made this a priority from day one of each new concept.

Jotto Desk products ship quickly and together, meaning less freight charges than separate shipments, installation can begin faster and ultimately the vehicle can join the fleet quickly. As the exclusive **TOTAL SOLUTIONS PROVIDER**, you can trust Jotto Desk as your single best source for your public safety vehicle needs.

ZRT GUN RACKS

FEATURING

SMARTLOCK TECHNOLOGY

When you need your weapon secured, yet quickly retrieved... trust Jotto Desk every time. Whether single or dual weapon, partition, rear seat or even trunk/rear hatch mounted, there is a Jotto Desk Gun Rack to meet the needs of your vehicle and the weapons you carry.

U.S. PATENT NO. 8,910,560 AND U.S. PATENT NO. 9,481,312

- ✓ ELIMINATES 12V HOTWIRING
- ✓ ZINC LOCK HEAD DESIGN - DEFORMS INSTEAD OF BREAKING
- ✓ SILICONE INSERTS IN LOCK HEAD PROTECT WEAPON FROM DAMAGE
- ✓ QUICKLY ADJUST AR SIDE ALONG THE STRONG EXTRUDED BACKBONE TO ACCOMMODATE VARIOUS STOCKS
- ✓ SINGLE OR DUAL WEAPON
- ✓ PLUG & PLAY LOCK HEAD/TIMER WIRING
- ✓ COMPACT SIZE - 1/3 SMALLER THAN OTHER LOCK HEADS
- ✓ INNOVATIVE SLIDE LATCH RECESSES INSIDE HOUSING WHEN ACCESSING FIREARM

BLM: BARREL LOCK MOUNT

THE AR BLM GUN LOCK SECURES WEAPONS AT THE LEAST ACCESSORIZED PORTION OF THE WEAPON... THE BARREL.

Jotto Desk's Barrel Lock Mount (BLM) has set the standard for securing an AR-15. This method allows you to secure virtually any AR-15, regardless of accessories. The minimal footprint of our gun rack design assists in the mounting process and the interaction with officers...critical with today's smaller vehicle interiors. The shotgun is secured beneath the pump portion, preventing the chambering of a shell/round.

870 LOCK LOCATION.

THE ZRT GUN RACK WITH SMARTLOK TECHNOLOGY IS WEAPON SECURITY YOU CAN COUNT ON.

ZRT LOCKHEAD WITH SILICONE-INSERT FOR SECURING SHOTGUN.
(SHOWN CLOSED & OPEN)

2016+ FORD

STORAGE SYSTEMS

It is important to keep your weapons, gear and emergency supplies organized and able to be accessed quickly. Jotto Desk offers Storage Systems for the Chevy Tahoe and the Ford PI Utility that are designed to provide options, security and allows for easy access to the spare tire.

The two categories of Jotto Desk Storage System are the Weapon Storage Cabinet/Dual Vertical Drawer and the Double Dual Vertical Drawer. Within those categories – the differences in the packages revolve around whether or not the Equipment Tray (PI Utility ONLY) and/or Horizontal Drawer are purchased.

Heavy Duty Mounts offer the next level in ruggedness and durability...making this the premium solution for securing a laptop in a law enforcement or fleet vehicle. They feature a heavy duty vehicle specific mounting base, rugged pole/stand for height adjustment, swing arm for horizontal adjustment, a tilt/swivel plate and are capped off with our new A-MOD Desktop.

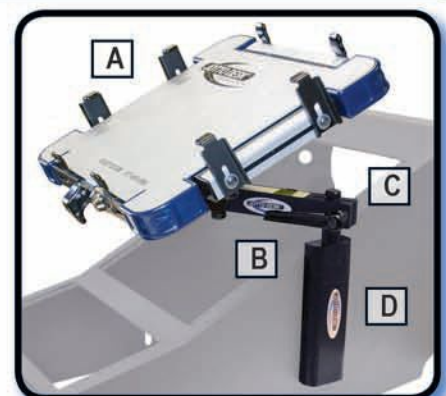

The JOTTO DESK® Computer Mount is a No Holes drilled, ergonomic, multi-adjustable articulated arm desk used as a platform for law enforcement to secure and comfortably use a laptop computer. Can be ordered with an A-MOD desktop or other solutions like those to secure docking stations, laptop mounting stations or tablet mounting stations. See pages 22-23 & 42-43 for more information.

CONSOLE SIDE MOUNT FEATURING THE A-MOD DESKTOP

The JOTTO DESK® Console Side Mount (CSM) features No Holes Drilled installation on the passenger side of a compatible equipment console, preserving front passenger side leg room and improving performance. The CSM offers a straight arm which enables you to comfortably use and secure a laptop using the A-MOD Desktop or other desktop.

See page 22 for more information on the A-MOD Desktop

EQUIPMENT CONSOLES

With the development of the Contour Console line by Jotto Desk in 2001, traditional console design was revolutionized. Rather than simply a box shoved between the seats and crammed with equipment, Jotto Desk evaluated the vehicle and designed consoles based upon what the vehicle would allow combined with the agencies needs. There have been many attempts to replicate our design, but none can compare.

THIS CONTOUR CONSOLE FOR 15+ CHEVY TAHOE INCLUDES STORAGE AREA WITH LOCKING LID AND PROVIDES ORGANIZED, EASY ACCESS TO EQUIPMENT MOUNTED IN CONSOLE.

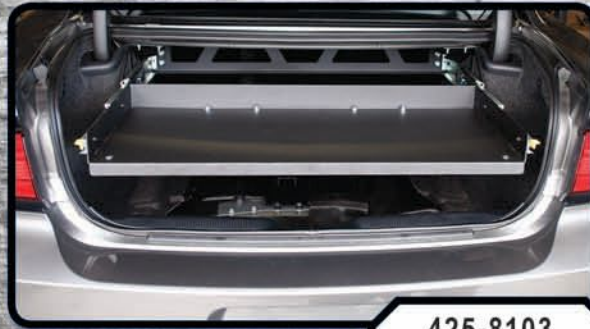

TSP
TOTAL SOLUTIONS PROVIDER

THE CONTOUR CONSOLE DIFFERENCE

- *Contour Consoles take advantage of previously unused space or voids from the vehicle manufacturer in an effort to benefit the officer, the installer and the agency.*
- *Our consoles are designed inside the OEM vehicle CAD data provided by the manufacturer. This results in consoles that look as if they were an OEM piece of equipment, creating an excellent fit and finished look.*
- *Innovative designs free up valuable real estate between seats for ever expanding equipment... from arm rests to printers and barcode scanners. More importantly, our consoles free up hip room for officers and make weapon access easier.*
- *Contour Consoles were also designed with the installer in mind. Many include locations for a console side mount, arm rest, cup holders and even mic clips. Others feature knockouts for 12v outlets, speakers and even fuse panels.*

A-MOD

THE ADJUSTABLE MOBILE OPERATIONS DESKTOPS OFFER A CUSTOM FIT AND STRENGTH YOU CAN DEPEND ON.

A Jotto Desk Laptop Mount featuring the new A-MOD Desktop is the ultimate desktop solution to secure a laptop computer in a mobile environment. The fully adjustable A-MOD Desktop features a lightweight, yet rugged lockable design with superior ergonomics.

A-MOD Desktops feature a lightweight yet rugged design that incorporates both high strength aluminum and composite materials where it makes sense. Conversely, we have mixed in steel where there is no substitute to the strength, structure and ruggedness that it provides. All of the Side Clamps and Rear Clamps, which hold down the laptop, are made of case-hardened steel and for our lock we chose a high security, solid brass tubular lock. It's not real security when a lock can simply be jimmied or the clamps can be easily bent out and the laptop stolen. With this mixture of elements and the other changes, we are confident that the A-MOD Desktops provide the most rugged, safest and most flexible universal desktop to secure a laptop computer in a mobile environment.

A-MOD STANDARD (w/GK PLATE) 450-4143

Laptop Fit Dimensions: W: 11.25" to 13.625" D: 9.25" to 11" with extensions H (Tall Clamp): 1" to 2.25"

A-MOD XL (w/GK PLATE) 450-4144

Laptop Fit Dimensions: W: 13.5" to 16" D: 9.25" to 11" with extensions H (Standard Clamp): 0.625" to 1.25"

A-MOD CF-33 (w/GK PLATE) 450-4147

Laptop Fit Dimensions: W: 11.25" to 13.625" D: 9.25" to 11" with extensions H (Standard Clamp): 0.625" to 1.25"

THE A-MOD DESKTOP EASILY ADJUSTS TO ENSURE A SECURE FIT FOR YOUR LAPTOP.

VEHICLE PARTITIONS

SPACE CREATOR VEHICLE PARTITIONS

Jotto Desk was the first to design the Space Creator Partition (*US Patent No. 8,690,216*), which features the Bidirectional Recessed Housing (BDRH). This innovative partition solution transforms previously unusable space to create additional leg room behind the front passenger seat. This design creates unparalleled leg room for even large prisoners while maintaining excellent use of officer seat for complete comfort. There is also plenty of room for a console, gun rack and printer.

HIGH SECURITY/HIGH VISIBILITY WINDOW

**US PATENT
NO. 8,690,216**

FULL WINDOW W/SAFETY WIRE

HIGH SECURITY / HIGH VISIBILITY WINDOW

A High Security/High Visibility (HS/HV) Window gives officers the best of both worlds - tremendous sight lines, whether looking out the rearview or turning around. The 4"H x 11"W window allows for communication or passing of information but there won't be anyone that will squeeze through this opening. If a prisoner spits/bleeds/smears the window - it is still easily cleanable...not so with "expanded metal".

The HS/HV window increases the visible area by a whopping 41% vs. older style windows. When someone sits in the drivers seat and looks through the rearview mirror for the first time, the natural reaction is to turn and look to see if a partition is installed...because the view is so clear.

THE NEW SPACE CREATOR MAX PARTITION FOR THE PI SEDAN CREATES INCREASED ROOM FOR PRISONERS THAT ARE SECURED ON THE PASSENGER SIDE AND THE DRIVER SIDE OF VEHICLE.

PARTITION STRENGTH IN ACTION

The Space Creator Partition (US Patent No. 8,690,216) by Jotto Desk, first introduced in 2011, creates room where none existed. The unique design maximizes the integrity and adds strength to the "hoop design" by continuing all the way to the floor, providing maximum protection.

High winds blew down a large pine tree onto this vehicle near Eufaula, Alabama. A Space Creator Partition was installed in the car and proved it's strength by preventing this car from being totaled.

.250 POLY WINGS

Our thick .250 Poly Wings are sturdy & work to prevent reaching through by a prisoner. Offered for F-150, PI Sedan, PI Utility, Charger, Ram, Tahoe & Caprice partitions.

WHAT 41% BETTER VISIBILITY LOOKS LIKE

Side by side, it is easy to see the advantage of our HS/HV window. Gain 41% better visibility when compared to traditional partition windows and also prevent "crawl-through" incidents by prisoners.

TRADITIONAL PARTITION WINDOW
REDUCED VIEW AREA

HS/HV WINDOW
UNOBSTRUCTED VIEW AREA

SINGLE CELLS

The “next generation” in prisoner containment helps to create even more room for a prisoner, provides the ultimate in driver comfort and has been designed from the ground up for ease of installation and cleaning.

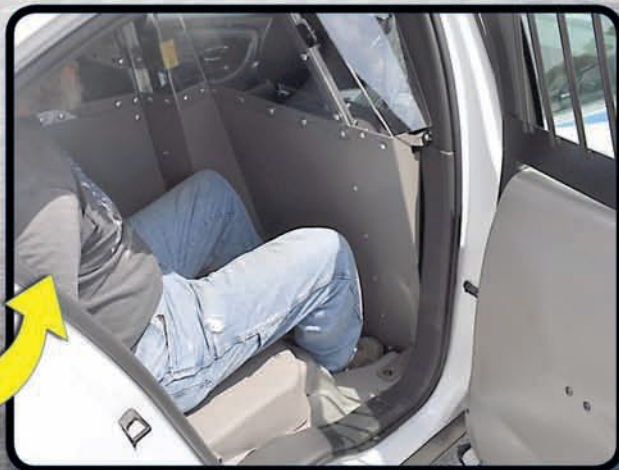

- Creates a cocoon-like cell that allows for the complete and safe enclosure of a prisoner.
- Eliminates the prisoners ability to lie down and kick out windows or damage doors.
- Maintain 100% travel & recline ability of drivers’ seat, allows taller officers to finally fit in their office.
- In an crash, the driver’s seat will perform as designed by the vehicle manufacturer.
 - Allows for storage behind driver seat. Keep rain gear, campaign hat, files, printer & duty gear better stowed away.

AVAILABLE FOR:

PI UTILITY, PI SEDAN, TAHOE AND CHARGER

SINGLE CELL FOR SEDANS INCLUDES:

- (A) - Front Divider
- (B) - Center Divider
- (C) - Passenger Side Window Armor
- (D) - Passenger Side ABS Door Panel
- (E) - ABS Seat, Floor Pan & Seat Belt Extender

SINGLE CELL LITE

The Single Cell solution has gained a steady following, however, not all agencies needed the complete Single Cell or were looking for a less expensive route. The Single Cell Lite was conceived to meet that specific need...yet still meet the agency need for the highest of quality product.

This solution is more basic than the traditional Single Cell...for sedans it includes the Center Divider and the Front Divider. For SUVs, it includes the Center Divider, Front Divider and Rear Cargo Barrier (CB4). The same quality and ruggedness is still there - but the entry price is lower.

AVAILABLE FOR:

PI UTILITY, PI SEDAN, TAHOE, CHARGER, SILVERADO, RAM AND F150

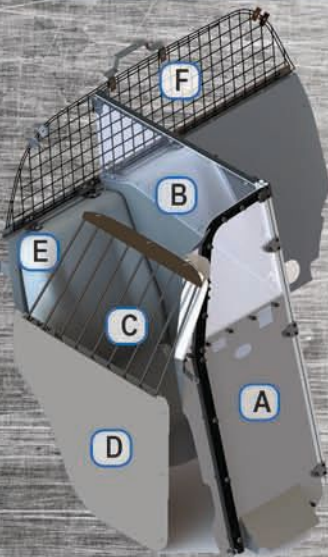

SINGLE CELL LITE FOR PI UTILITY

- For The SUV's, the OEM rear seat remains in place. No testing is required as the OEM seat structure has already passed ALL required testing - no storage solution is required to house these heavy/ bulky seats - AND the agency gains the benefit of an ABS seat (biohazard and contraband control).

SINGLE CELL FOR SUVs INCLUDES:

- (A) - Front Divider
- (B) - Center Divider
- (C) - Passenger Side Window Armor
- (D) - Passenger Side ABS Door Panel
- (E) - ABS Seat Cover & Seat Belt Extender
- (F) - SCA Compliant Rear Cargo Barrier (CB4)

A SINGLE CELL FOR SUV, SHOWN HERE IN A PI UTILITY (LEFT IMAGE) AND A TAHOE (RIGHT IMAGE), TAKES ADVANTAGE OF FRONT AND SIDE DIVIDERS AND A REAR CARGO BARRIER TO CREATE A TRUE CONTAINMENT CELL AND A SECURE TRANSPORT ENVIRONMENT FOR A PRISONER.

PRINTER FACEPLATES

PRINTER MOUNTING SOLUTIONS

CONSOLE FACEPLATES THAT INTEGRATE BROTHER (RJ4030)
& ZEBRA (ZQ520) 4" PRINTERS INTO EQUIPMENT CONSOLES

The Printer Faceplate will secure your 4" printer in an ergonomic location and when you need to change the paper roll...it's as simple as can be. These faceplates were designed for the Brother (RJ4030) and the Zebra (ZQ520) 4" Printers. Our goal was to keep it secured in the equipment console and keep it in a position where it could be easily interacted with by an officer.

BUT... WHAT ABOUT THE PRINTER?

THE NEXT GENERATION OF CONTOUR CONSOLES...
THE INTEGRATED PENTAX/BROTHER 6/7 CONTOUR CONSOLE

The IPBCC's truly innovative design integrates the Pentax/Brother PocketJet 6/7 printer and paper roll into our newest Contour Consoles. This provides an ergonomic setup without the twisting and turning that an armrest printer mount requires. Plus, it eliminates that additional accessory purchase and greatly improves access to a vertically mounted gun rack.

AR/ZRT WIDE BODY CONSOLE

Law enforcement equipment console designed to mount 20 inches of radio and communications equipment into Fish & Game/Parks & Wildlife pickups. The AR/ZRT Wide Body Console provides a concealed and dual security storage solution for the AR-15/M4, when the vehicle is left unattended for an unknown or extended period of time. The 12 gauge enclosure is locked with (2) barrel key cam locks, while the AR/M4 is secured with a ZRT Lock Head. Easy access top down installation onto our extruded aluminum floor plate uses simple hand tools and requires no drilling.

DOCKING STATIONS

THE CF-31 IDOCK INTELLIGENT DOCKING STATION IS PERFECT FOR MIXED FLEETS SINCE IT IS COMPATIBLE WITH CF-31/30/29/28 AND ALSO THE GETAC B300.

Jotto Desk has done it again with the Kodiak Mobile Docking Station. We have taken it to the next level by making some key internal changes to our CF31 docking station – which have allowed Jotto Desk to release it as a fully compatible docking station for the Panasonic CF31 AND the Getac B300.

The CF31 docking station was first introduced in January 2011 – and is the only docking station on the market that is fully compatible with Panasonic CF31, CF30, CF29 and CF28 Toughbooks... and now you can add the Getac B300 to the list. Additionally, this docking station includes the 120 watt Power Supply and Power Management Circuitry as Standard Features...at no additional cost.

STANDARD FEATURES INCLUDED (AT NO EXTRA COST)

- (5) USB 2.0 PORTS
- 120 WATT POWER SUPPLY
- (1) ETHERNET PORT
- SURGE SUPPRESSION
- REVERSE VOLTAGE PROTECTION
- LOW VOLT MONITORING
- AUTO ACTIVATION & SHUTDOWN
- TRANSIENT VOLTAGE PROTECTION
- USER CONTROLLED TIMED SHUTDOWN
- SLAM LOCK - THEFT PREVENTION
