

SERVICE BODIES SELECT II

Select II

Completely redesigned in 2013, the Select II has raised the standards in quality and performance for service bodies in its class. Featuring a cutting edge aerodynamic look with straight edge top, flush-mounted doors and stainless steel continuous hinges, the Select II delivers increased storage, durability and security at a competitive price.

We continuously strive to build the best available truck bodies in the country. Find out more at warnerbodies.com.

Select II

Features

Enhanced Durability, Safety & Security

- Exclusive 5 year Warner Bodies Warranty guarantees construction & quality
- Stainless steel double paneled doors keeps contents secure
- Polished fuel fill eliminates paint chipping from runoff
- Punched bumper increases user stability and grip
- Manufactured in A60 galvaneal adds 50% more corrosion resistance than industry standards
- Gas shock door holders keep doors in position during work & transit

Added Weather Protection

- American made stainless steel paddle latches ensure compartments stay closed and dry
- Heavy duty clip-on automotive door rubber seals out weather
- Built in rain gutters on doors shed water away from compartments and protect contents

Maximized Storage Organization

- Removable panels between compartments allows storage of long objects
- Divider trays and adjustable flat shelves provide customizable storage flexibility
- Difficult to pry open flush-mounted, 16-gauge double-panel doors for added security

Popular Custom Upgrades

Custom Top Options

- Flip top - creates additional storage space
- Enclosed top - adds storage and security
- Roller tops - increased security of items in load space

Custom Racks & Rails

- Ladder
- Pipe
- Rope Rail

Custom Compartments & Drawers

- Custom drawer units and compartments are engineered to meet exact specifications & needs
- Through box between compartments for large object storage
- Unistrut compartment shelving
- Lighting options available for compartments & interior

Additional

- Tail light installation in rear compartments
- Recess in rear bumper for trailer hitch
- Master locking system for added security & ease of use
- Grab Handles
- Hold-downs in floor
- J-Hooks (fixed, swivel or 3-way locking)
- Rock Guards
- 3 point compression latches
- Reinforcement for cranes
- Provision for welders & air compressors
